Professional Experience

2022/02 – present
Remote

Freelance Web Developer
- Designed and maintained software documentation sites using **React**, **TypeScript**, **TailwindCSS**, and **ShadCN UI**, ensuring seamless user experience and optimized performance.
- Implemented state management with **Zustand** and data handling with **TanStack Query**, improving app scalability and reducing response times.
- Deployed front-end applications using **Vercel/Netlify** and back-end services on **Render**, ensuring high availability and fast delivery.
- Collaborated with clients and stakeholders to identify and prioritize feature requests, leveraging **Git** and **GitHub** for streamlined development and version control.

2024/08 – 2025/01

Buug: Personal Full-Stack Project
personal project ⧉
- Built a productivity web app using **React** for the front end, **Hono** and **Bun** for the back end, and **Neon Postgres** for database management.
- Integrated features like task management, project planning, markdown support, and progress visualization, ensuring a user-friendly and efficient workflow.

Projects

Portfolio Website
- Developed a responsive portfolio website with **React**, **Framer Motion**, and **GSAP**, showcasing projects with smooth animations and dynamic transitions.
- Designed a visually appealing UI using **Figma** and implemented responsiveness with **TailwindCSS**, improving user engagement and accessibility.

Buug Documentation and Landing Page ⧉
- Developed and deployed two separate websites to enhance the Buug ecosystem.
- Ensured seamless navigation and accessibility by implementing modern UI/UX principles and deploying on Netlify for fast and reliable performance.

Skills

Front-end Development
React, TypeScript, TailwindCSS, Zustand, ShadCN UI, Framer Motion, GSAP

Database Management
Drizzle ORM, MongoDB, Neon Postgres, SQL

Operating Systems
Linux (shell scripting, server management)

Soft Skills
Technical documentation, Collaboration, Problem-solving

Back-end Development
Hono, Bun, Node.js

DevOps
Vercel, Netlify, Render

Tools
Git, GitHub, Figma, TanStack (Query, Router, Form)
